PCC Consumer Products Kosmet

ABOUT US

PCC Consumer Products Kosmet is one of the leading manufacturers of household chemicals and cosmetics. The Company has been present on the market for over 20 years. It belongs to an international Capital Group PCC SE headquartered in Duisburg, Germany. PCC is one of the largest manufacturers of chemicals in Europe. It currently consists of over 80 companies in 18 countries - mainly within chemistry, energy and logistics sectors.

Our presence in the group provides PCC Consumer Products Kosmet with a number of internal synergies such as integration related to raw materials, access to state-of-the-art technologies and extensive research and development base, which is the fundament for our competitive advantage. The company continues to invest in development of its manufacturing and R&D potential to improve quality of products, increase efficiency in operations, energy-related efficiency and at the same time we meet

the requirements of environmental protection, work safety and hygiene standards. The Company undertakes voluntary initiatives related to sustainable development. Production in the company is performed with respect to the top international quality standards such as IFS, BRC, GMP, A.I.S.E., ISO, RSPO, EcoVadis.

Manufacturer of an innovative brand - FLO

PCC Consumer Products Kosmet has been successfully selling products under the brand FLO on international markets. The effect of a dynamic development and understanding of customers' needs is the presented offer of modern, innovative FLO products, which are highly effective in action but take care of the environment, too. This is very important to customers with environmental awareness and high requirements for the products they use. These are universal products manufactured

using natural oils, fruit and flower extracts. Easily biodegradable and efficient surfactants are used in production. Products from the FLO brand are delicate on skin and do not contain phosphates or parabens.

Flo products combine newest trends, care about cleanliness of a house and environment protection. They are distinguished by a very high quality, efficiency and effectiveness of use and a beautiful, natural smell.

We can proudly say that this is the result of our vision, determination, passion and broad experience.

Experienced expert in the private label sector

PCC Consumer Products Kosmet is one of the main European manufacturers in the private label sector within the domain of household chemicals and cosmetics. The Company's operations focus on manufacturing products under private labels of the leading discount stores and our customers are the largest commercial

chains from the area of Central and Eastern Europe.

Trusted vendor

Customers of PCC CP Kosmet are also global companies for which products are manufactured in way of contract manufacturing. This manufacturing model is a form of outsourcing, where customers produce their well-known brands at the third party manufacturer.

Renowned manufacturer of chemicals for professional use

The Company has also been gradually developing a portfolio of professional products designated for use in various types of public facilities. PCC CP Kosmet is a highly-regarded manufacturer of professional preparations used in agriculture and food industry, too.

Flo – passion and experience

Flo

Your natural choice...

Innovative and modern products of the Flo brand take care of both a clean house and environmental protection. These universal products are created with the use of natural oils, fruit and floral extracts which are characterised by the very high efficiency and effectiveness of performance and a beautiful natural fragrance.

- Formulas contain **easily biodegradable** and effective surfactants.
- Product formulations are **enriched with active ingredients**, including, among others, oils, extracts and functional additives.
- Products **delicate to skin**, dermatologically tested and containing carefully selected fragrance compositions.
- Products contain **no phosphates or parabens**.
- Sustainable development and environmental protection – we make use of **modern eco-friendly technologies**, enabling us to reduce power consumption and increase economic efficiency (ISO 50001 system).
- In our production we aim at supporting **environmental protection** and preventing pollution in accordance with ISO 14001.
- Our own water treatment plant ensures **the highest hygienic standards** in production.
- **Over 20 years of experience** of developing and producing household chemical products and cosmetics of the highest quality.
